

# Foreign Notes

Barbara Kloss, our foreign catalog editor has submitted two new items of interest, a follows:

SOME NORTHERN LIGHT - Erling Dehli, #1122, of Oslo, Norway, has furnished information regarding Norwegian stamps perforated with a star, as illustrated below. Dehli says, "the postal authorities used such machines to invalidate old money-orders, and the stars do have different sizes and shapes."

"The police used the same method to null and void old passports, and the banks did the same with their customers' old bank books when accounts were closed."

Member Dehli has kindly sent the Club library the Norgeeskatalogen 1975 pages dealing with Norwegian Perfin's (illustrations and identifications) - both private and official. He requests that any new dies be sent to him at Box 2596 Solli, Oslo 2, Norway.
